Задание: 1) Повторите правила чтения;

2) Отработайте технику чтения текста «Road Transport», запишите аудио с чтением текста и пришлите аудиофайл на почту.

Road Transport

Rusavto as international road carrier has been operating in the world market of transportation and forwarding services since 1968.

It is a major transport company which deals with first-class partners throughout Europe, Asia and the Middle East and carries out large orders of about 2 million tons every year. For the last few years international carriage of goods has considerably increased. The volume of transported cargoes is growing, new routes appear, and the range of goods is becoming wider.

In the European market of transport services the Company closely cooperates with more than a hundred international transport and forwarding firms.

The Company has an up-to-date fleet about 3,500 motor vehicles with a carrying capacity of 20 to 30 tons and a body volume of 60 to 103 cu.m. which are capable of carrying any cargoes, including those requiring certain temperature conditions, containers, large-size and bulky cargoes. More than half the trucks are the products of such well-known manufacturers as Mercedes-Benz, Volvo etc. Among the imported semi-trailers are Trailor, Schmitz and Koegel. All these vehicles satisfy the international requirements regarding technical reliability, safety of goods and ecological standards. The

vehicles of Rusavto meet the requirements of international transportation by road and are used on the routes of the CIS and Europe.

The Company transports large consignments on the door-to-door principle. It also handles small consignments of less than 5 tons at their terminals in Moscow, St. Petersburg and some places, stores them in warehouses, makes customs clearance and delivers groupage cargo to the final destination.
